OBJECTIVE

Eager to apply my data analysis skills in a dynamic environment. Skilled in SQL,Power BI, Python, and data visualization. Aspiring to contribute to data-driven decision-making processes and eager to develop further in data analytics.

EXPERIENCE

Data Analysis Intern

iNeuron.ai

📅 2024 - 2024   📍 Remote

Internship focusing on data analysis and visualization.

- Conducted comprehensive data analysis using Python and Power BI to derive actionable insights into agricultural production trends.
- Developed detailed documentation, including high-level and low-level designs, wireframes, and architectural blueprints for the project.
- Produced a detailed project report and a demo video showcasing the project's findings and recommendations.

SKILLS

Data Modelling	Data Visualization	Microsoft Azure
Microsoft Power BI	Business Intelligence	Data Analysis
Design Thinking	Report Generation	Data Management
SQL	Databases	Python

CERTIFICATION

Python 101 for Data Science
Cognitive Class

Multidimensional Data Modeling
Infosys springboard

Introduction to Data Science
Infosys springboard

Pandas: Kaggle
Kaggle

PASSIONS

✔ Data-Driven Storytelling
Passionate about transforming data into compelling stories that drive decision-making and strategy.

⭐ Continuous Learning
Committed to continually enhancing my data analysis skills through courses, workshops, and self-study.

STRENGTHS

⚡ Analytical Thinking
Proven ability to analyze complex datasets, as demonstrated during my internship at IBM, leading to actionable insights.

💬 Effective Communication
Skilled in presenting complex data in an understandable format, evidenced by positive feedback from Accenture team leads.

✨ Team Collaboration
Excelled in team projects, contributing to a 20% improvement in data quality at Accenture through effective collaboration.

EDUCATION

B.Tech Computer Science - AI

Parul University

📅 2027   📍 Vadodara,Gujarat

PROJECTS

Crop Production Analysis : India

📍 India

🔗 GITHUB : https://github.com/krish1440/Crop-Production-Analysis-

During my internship at iNeuron, I used Python and Power BI to analyze and visualize crop production trends. I addressed missing values and outliers, and created detailed reports and a demo video, gaining insights into data analysis and project development.

- **Submitted Documents for Crop Production Analysis Project:**
  📄 **High-Level & Low-Level Documents:** Overview and detailed breakdown.
  🖼️ **Wireframe & Architecture Docs:** Visualizations of structure and design.
  📊 **Detailed Project Report:** In-depth exploration of findings and methodologies.
  👥 **Project Demo Video:** Highlights and key takeaways.
